

EMIRSYAH AHMAD AKMAL

+6288212475590 | emirsyahahmadakmal@gmail.com | linkedin.com/in/emirsyahahmad
Bogor, Indonesia

Computer Science undergraduate with a focus on Software Engineering and Information Systems. Passionate about designing and building web applications that solve real-world operational challenges. Looking to build my path as a Full-Stack Developer through practical opportunities to build complete, end-to-end systems.

Education

IPB University - Bogor, Indonesia	Aug 2025 - Aug 2029 (Expected)
<i>Bachelor of Computer Science</i>	
- Relevant Courses: Database Sytems, Object- Oriented Programming, Algorithms & Basic Programming, Computational Thinking - Intended Concentration: Software Engineering & Information System	

Projects

Aquarobic Health Club Member & Attendance System	Jul 2026 - Present
- Developed GPS check-ins with real-time radius validation to prevent attendance fraud. - Designed an administrative interface featuring widgets for operational monitoring. - Built a multi-tier membership and billing module to manage dynamic session quotas and branch surcharges. - Implemented server-side data filtering with DataTables and CSV export for monthly financial reports. - Integrated automated push notifications for class summaries and real-time alerts.	
Analisis Hubungan Ketersediaan Fasilitas Kesehatan terhadap Indeks Kesehatan Provinsi Jawa Barat Tahun 2022	Jan 2026 - Jun 2026
- Analyzed cross- sectional demographic and healthcare data across 27 regencies in West Java using secondary datasets from Statistics Indonesia (BPS). - Conducted statistical modeling, including Pearson correlation and scatter plot analysis, to evaluate the relationship between healthcare facility distribution and regional health index. - Designed thematic map visualizations to clearly present geographical data patterns between urban and rural demographic groups. - Translated statistical findings into actionable insights and strategic recommendations for regional policy improvement.	

Skills

- **Hard Skills:** HTML, CSS, PHP, JavaScript, Bootstrap, DataTables, MySQL, GitHub, VS Code
- **Soft Skills:** Communication, Teamwork, Problem Solving, Time Management
